

Lateef - Announcement

Changes

New

- Added:
 - FD42 ARABIC LIGATURE RADI ALLAAHU ANHAA
 - FD47 ARABIC LIGATURE ALAYHI AS-SALAAM
 - FDCF ARABIC LIGATURE SALAAMUHU ALAYNAA
 - FDFD ARABIC LIGATURE BISMILLAH AR-RAHMAN AR-RAHEEM

Known issues

- Shaping for the newly added characters may not yet occur in applications.
- Medial and final high hamza characters may have collisions (these likely do not occur).
- Lam + high hamza alef ligature does not form as it likely does not occur.
- In Word: kerning of Arabic proportional digits is incorrect. This is a bug in Word.
- In InDesign: some behaviors, such as the *lam-alef* ligature, raised *kasra* with *shadda*, and subtyping marks, will not function correctly unless **Ligatures** is turned on in the **Characters** panel.
