Kanchenjunga - Documentation

Thank you for your interest in the Kanchenjunga font. Kanchenjunga supports the Kirat Rai script.

This documentation is a set of HTML pages that can be viewed in any modern web browser. PDF versions of these pages are also provided. This content, plus download links and a contact form, are available from the Kanchenjunga site.

- About — Information about this project and SIL International
- Resources — Help with installation and use
- FAQ — Common questions and answers
- Design — History and background of the design
- Character set support — Details of Unicode characters that are supported
- Type Sample — Type sample demonstrating all the characters in this font
- Font features — Using smart font features
- Support — How to get additional support
- Developer information — How to modify and build the fonts
- Versions - Sources for alternate versions
- Version history - Complete version history
- Announcement - Source for News announcement

Additional information is also provided in other project files: README.txt, OFL.txt, OFL-FAQ.txt, and FONTLOG.txt.
